SPECIFICATIONS

REQUIREMENTS:

The International Foundation for Electoral Systems (IFES) invites your firm to participate in this competitive solicitation for the provision of three 20ft COGIM type office containers.

The quote provided must include all and every cost associated with providing this 20ft COGIM type office container, including delivery, transportation, offloading, installation etc.

The units must be transported with a truck with crane to off-load at the desired location at provincial office(s).

DELIVERY LOCATION:

Two containers have to be delivered and installed at Kandahar IEC Provincial Office and one at Kabul IEC Provincial Office located on the Darulaman road.

MATERIALS QUALITY:

All materials e.g., the containers, cables, switch, sockets, lights, fuses, plywood and insulation that will be used for the fabrication of the office type container shall be new and of the best quality available in the market.

SPECS:

A 20 foot container shall be furnished as following:

- Fabrication of one window of 120x20cm with handles to enable it to be slid open.
- Fabrication of a door 200x100cm with a glass panel
- Fabrication and installation of 5cm thick glass fiber insulation. The insulation between the plywood and the container walls and ceiling must be fitted properly.
- Fabrication and installation of 8mm glassy lasani plywood on inside surface of container (walls, and ceiling). On the floor surface adequate floor plastic must be installed.
- Provision and installation of four tube lights 1m long in two enclosed transparent units along with a single switch.
- Provision and installation of two sockets each fitted with a 13-Amp fuse.
- Provision and installation of a fuse box with checkable fuses. This must be fitted with a fuse of at least 30 AMP joint to the sockets and 3-Amp joint to the lights.
- All cables, switches, etc must enable constant safe use of electric items that draw the maximum amount of power permitted by the fuse values noted above.
- All units shall be connected to main power. All the external cables must be fully contained in rigid (plumbing) pipe.
